Backend Developer, AI Prompt Engineer

I've been working in web development for over 4 years, with the last 3 years focused on freelancing. During this time, I've built and maintained a wide range of web applications, from custom backend systems to full-scale web platforms. My experience spans both client work and collaborative team projects, giving me a solid understanding of real-world development, deadlines, and delivering results that meet business goals.

WORK EXPERIENCE

LabourX 05/2023 – Present Backend, AI Prompt Developer Virtual

- Developed dynamic and responsive web applications by leveraging modern frameworks and standard industry stacks, delivering seamless user experiences and visually appealing interfaces across 10+ client projects.
- Demonstrated versatility across diverse projects, from business dashboards to eCommerce platforms, reinforcing a reputation for reliability, adaptability, and front-to-back proficiency.
- Transformed complex client requirements into scalable web solutions, consistently delivering clean, maintainable code and enhancing user engagement metrics by up to 40%.

Upwork 08/2021 – Present Web Developer Virtual

- Built and optimized scalable backend systems using Laravel, JavaScript, MySQL/PostgreSQL, and Linux environments, ensuring high performance, security, and maintainability for over 15+ client projects.
- Led the end-to-end architecture design for custom web applications, APIs, and admin dashboards, contributing to a 95%+ client satisfaction rate and consistent good feedback.
- Delivered 100% of projects on time, often exceeding expectations on performance benchmarks, helping clients launch MVPs and full-scale apps efficiently.
- Earned long-term client trust, with 30%+ repeat clients, by consistently providing clean, well-documented code and clear communication.

Swisstronick 03/2023 – 08/2023 Blockchain Developer Swisstronik, Virtual

- Building private blockchain smart contracts, writing articles for the Swisstronick bounty hunt, and stress testing the blockchain network.
